

# WELCOME TO SAGE5

Exceptional Remote Talent for Your Business

Expand your team with pre-vetted developers from around the globe.

Achieve up to 40% savings on hiring costs for any business size.

# THE SAGE5 DIFFERENCE

Access to a curated pool of top talent, avoiding the unpredictability of freelance hiring.

Short-term and long-term engagements (weeks to months).

Efficient, streamlined hiring processes save your business valuable time and resources.

Tap into the global talent pool, including the top 3% of developers worldwide.

# BENEFITS FOR YOUR BUSINESS

Seamless hiring eliminates operational bottlenecks, perfect for businesses of any scale.

Clear communication and collaboration with English-proficient developers ensure smooth project execution.

Removes the hassle of paying taxes and doing payrolls for your remote resources, We will take care of it.

No need to skim through remote developers in services like Upwork and Fiverr and have trust issues; we fully Vet and are fully and professionally insured to handle all situations.

We will do minimum financial, educational, reference and background checks and, if required, extended and in-depth background checks of all our resources.

We are happy to sign NDA, and our resources are already on NDA with us in their respective countries.

Resources are pre-trained in different work cultures to gel with yours immediately.

# WHY CHOOSE SAGE5

Quick access to experienced developers tailored to your business needs. Substantial cost and time savings across your hiring practices. Enhance your business's operational efficiency and innovation capacity.

We are specialised in specific skillsets:

- DevOps
  - AWS and GCP
- Developers
  - NodeJS/ExpressJS, Javascript Backend
  - React/NextJS, VueJS Frontend
  - Python Developers (Non-Data-Science)
  - Java Developers

# WHO WE ARE?

We are Hardcore Techies based in the UK and have been in the Tech industry for around three decades. We have experience building Tech for Startups and large Banking and Financial Services in the UK, USA and Europe.

We are fully hands-on and understand the exact gap in engaging Developer and DevOps resources. We would like to help you with our experience to do more with less cost.
